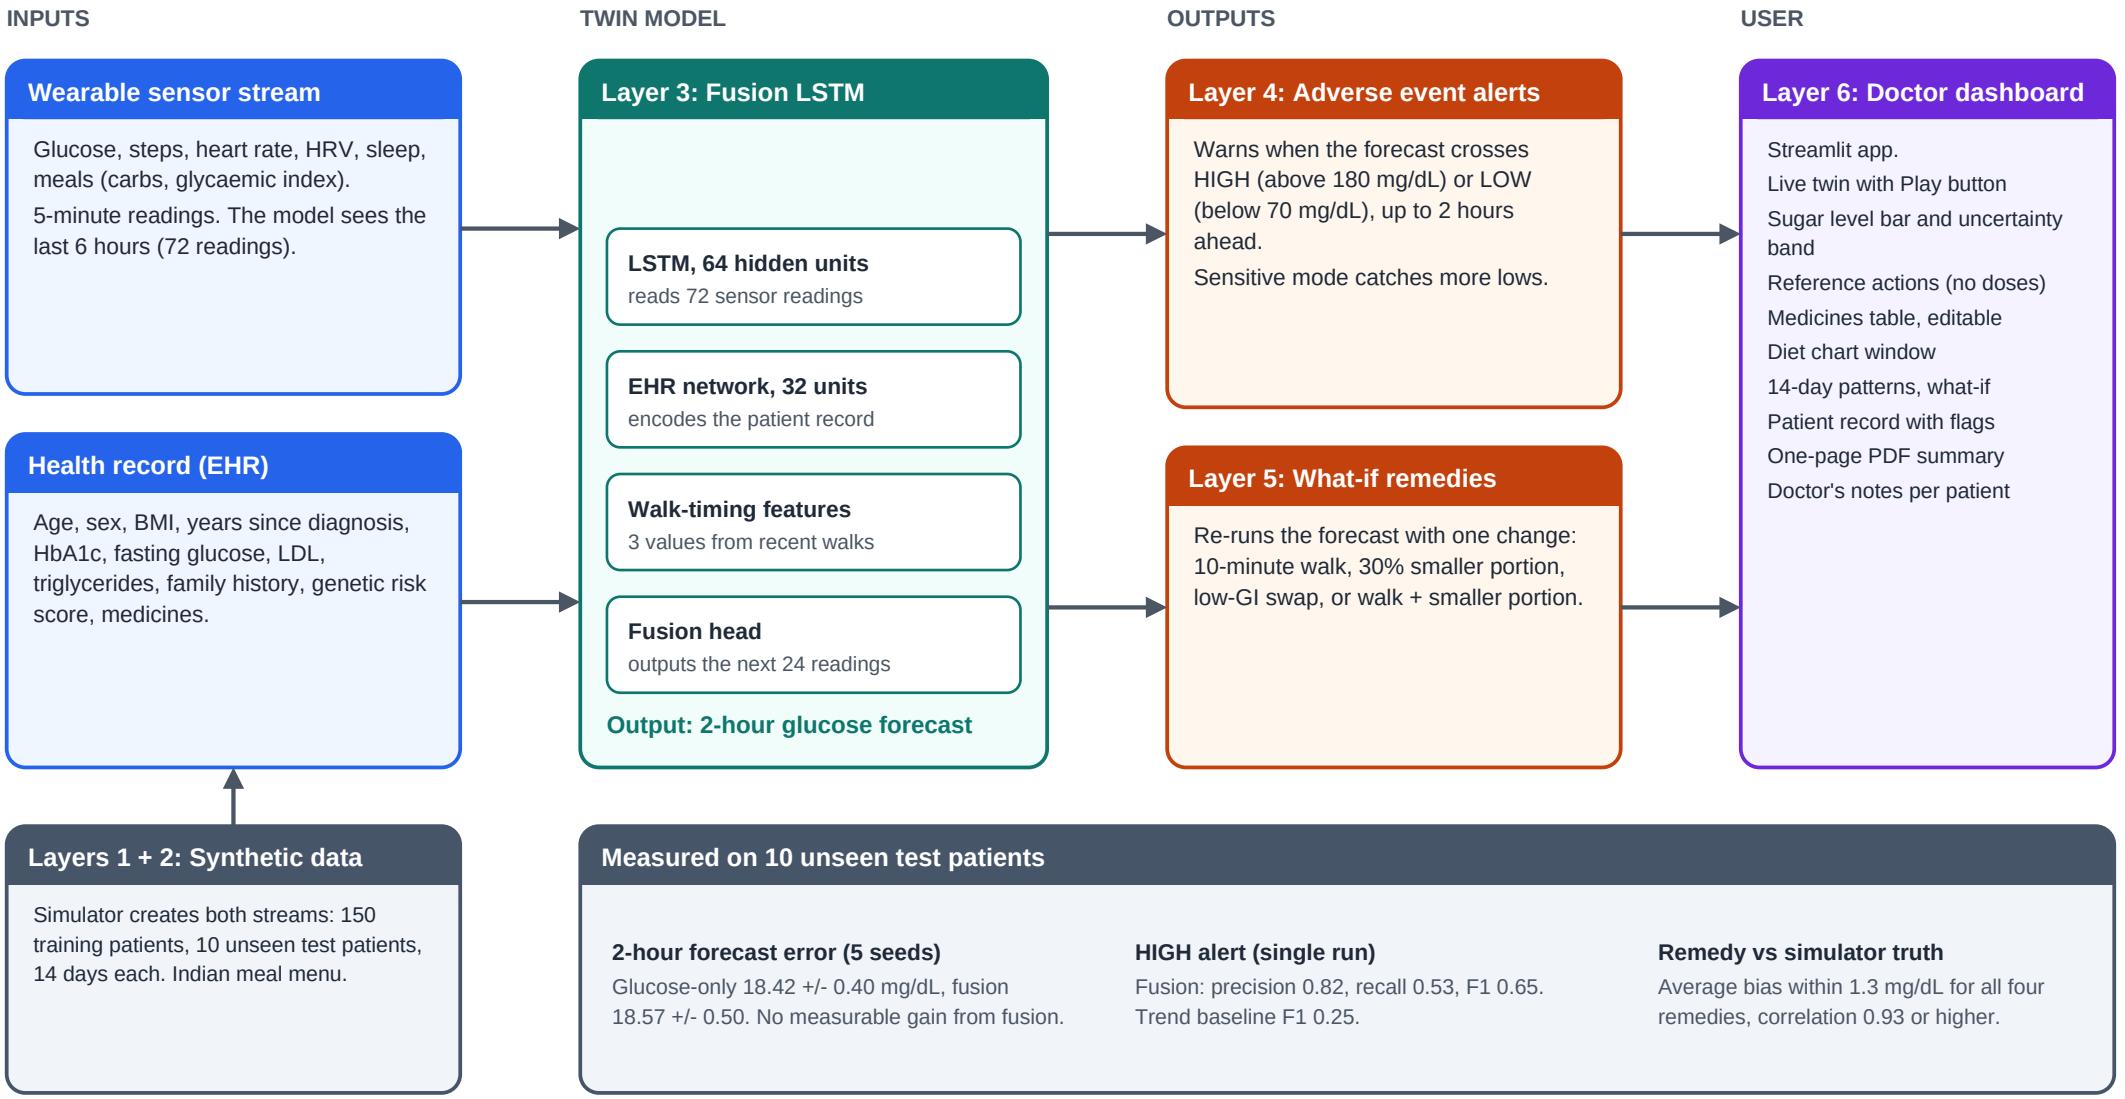
Type 2 Diabetes Digital Twin: System Architecture

Team bloom | Shri Shankaracharya Mahavidyalaya | Venkatesh Shukla (solo) | Happiest Health Digital Twin Challenge 2026



Trained on 100% synthetic data; first check on anonymized real data (CGMacros, 14 T2D patients). Not medical advice, not clinically validated.

Code: github.com/venkatesh-spec01/diabetes-digital-twin | Python 3.14.8, PyTorch 2.14.1, Streamlit
